Claims 1-28 and 34-36 are presented for examination.

The amendments and remarks filed on August 19, 2003 have been received and entered.

Claims 1-23 and 34-36 are rejected under 35 U.S.C. 103 as being unpatentable over Nelson and Boltralick for and further over Krejci for the reasons set forth on pages 2 and 3 of the office action of May 19, 2003 and the following reasons.

Krejci teaches the use of the claimed copper chelator, diethylene triamine for the treatment of acid burns in the eye. See the summary. The above reference makes clear that the ophthalmic use of the claimed compound is safe.

Applicant's arguments and remarks have been carefully considered, but are not deemed to be persuasive. Applicant alleges criticality that some anti-inflammatory agents are not suitable for ophthalmic use. The allegation considering the newly relied upon reference is not well taken. Applicant has presented no evidence to establish the unexpected or unobvious nature of the claimed invention, and as such, claims 1-23 and 34-36 are properly rejected under 35 U.S.C. 103.

Claims 24-28 are objected to as being dependent on a rejected claim.

The newly submitted art by the applicant necessitates the new ground of rejection.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
